### **A PCC MISSION MOMENT: WORLD WATER DAY – MARCH 22**

Worldwide, 663 million people live without improved drinking water sources. A lack of clean water is a significant development challenge. In areas of the world where access to water is limited, local Presbyterian World Service & Development partners are responding to improve water sources, build new ones and train volunteers to maintain wells. Support to improve sanitation ensures water stays clean and prevents the spread of illness. PWS&D equips communities to build hand-washing facilities and latrines and educates members about proper hygiene. The results of this program are transformative and far-reaching ... clean water allows women and men to harvest crops, care for their families, expand their livelihoods and lead healthy, productive lives.

*PWS&D helps families access clean water and sanitation*
